The NeonMaker Light Editing Software

The NeonMaker is a new advanced approach for adjusting RGB on Riing Quad fans. It allows users to customize their lighting effects on each singular LED, granting access to further customizable lighting options. The NeonMaker supports all TT RGB PLUS fans from Riing Plus, Riing Trio to the latest Riing Quad. The NeonMaker not only provides various default effects, but users are also able to customize lighting colors, variation timeline and the direction of lighting cycles on this special editor.

The video player shows a product introduction for the Thermaltake Floe DX AIO cooler. The scene features a person's hand pointing towards a monitor displaying a 3D model of the cooler. To the left, there are several physical components of the cooler, including fans with purple and blue lighting. A specification box is overlaid on the right side of the video. The video player interface includes a progress bar at 1:17:59 / 2:28:54, a channel name 'Aliyn', and a title 'Cooler - New Product Introduction'. A circular logo in the top right corner reads '2020 THERMALTAKE EXPO JUNE 2-3-4'.

Thermaltake Launches Riing Quad 120mm and 140mm RGB Radiator Fans with NeonMaker Light Editing Software at CES 2020

World's first RGB fan with 4 independent 16.8 million colors LED ring, featuring 54 addressable LEDs each fan for endless color customization, Available in Black and white blade options

LAS VEGAS, Jan. 7, 2020 /PRNewswire-PRWeb/ -- Thermaltake, the leading premium brand of DIY PC components for Cooling, Gaming Gear and Enthusiast Memory solutions has announced Riing Quad 12 RGB Radiator Fan and Riing Quad 14 RGB Radiator Fan, the world's first 16.8 million 4-ring design radiator fan with 54 addressable RGB LEDs. Supports NeonMaker Light Editing Software and TT RGB PLUS Software, up to 20 of Riing Quad RGB Radiator Fan can be controlled at the same time. The Riing Quad works with Amazon Alexa and can Sync with Razer Chroma Lighting as well as Thermaltake AI Voice Control. With a 9-Blade High-Airflow design, the Riing Quad utilizes 120mm and 140mm high-static pressure blade design, long-life hydraulic bearing and a PWM controlled motor to deliver remarkable acoustic and cooling performance to elevate the aesthetics of custom PC build.

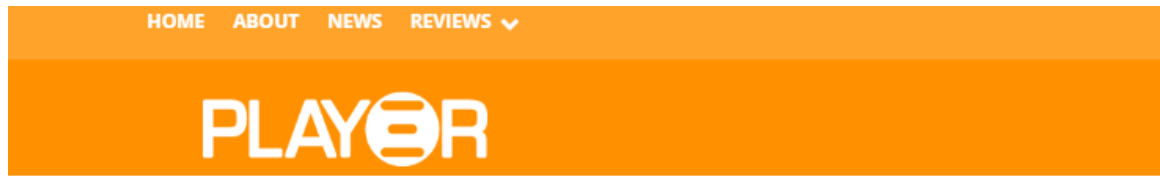

The NeonMaker Light Editing Software is a new advanced approach for adjusting RGB colors and effects on Riing Quad and offers a 16.8 million color palette with multifunction panel. It allows users choose from over 200 different lighting effects and access to further customizable lighting options such as variation timelines and the direction of lighting cycles. Share the lighting profile with friends and allow them to merge multiple lighting effects into a single profile and modify the lighting timeline until they are satisfied with the order. All will drag and drop.

Combined the inner and outer light loops contain 54 LEDs, the Riing Quad can deliver detailed and colorful lighting effects that will impress from any angle. High-Airflow 9 Fan Blade allows stronger flow, while the hydraulic bearing provides a
