

Epiphany

Technology to Support & Engage

The screenshot displays the Epiphany Platform interface for an assignment titled "ASSIGNMENT - SECTION 1 DUE: 08/09/2018 12:00AM". The interface includes navigation buttons for "BACK TO CLASS", "EDIT ASSIGNMENT", and "DELETE ASSIGNMENT". A "Color Key" section is visible, with options for "Acid Base" and "Structure". The main content is a table showing student performance, with columns for "Student Email" and five columns of star ratings. The table is sorted by "Email Name A-Z".

Student Email	4	7	8	4	8

THE EMAILS DISPLAYED ARE NOT REAL STUDENTS, USED FOR TESTING PURPOSES ONLY

The Epiphany Platform provides a new method of engaging students: integrating intuitive and captivating digital tools with cloud-sharing and real-time feedback.

Epiphany helps instructors understand not just what students know, but how and when they know it.

Learning Tools

Our tools give students a space to experiment with ideas and apply concepts - encouraging critical thinking and problem solving. We blend commercial game design with the mobile and digital technologies that students have grown up with to provide a unique and refreshing learning experience.
