Q I have 2 questions about DaVinci Sleep Benefits capsules: Is it better to take it after a meal or on an empty stomach? Is it safe to take over a longer period of time, e.g. for a year or more? Thank you!

I thank you for the questions on our Sleep Benefits. This product can be taken with or without food before bedtime. While it is safe to take for a longer period of time, please be sure to review the warning box and caution on the product label and consult your health care practitioner as well. If you have any further questions regarding any of our products, feel free to contact us at 1-800-325-1776.

4 stars GREAT SLEEP

It was really good. It didn't make me tired, but when I lay down I fell asleep right away. I slept through the night and wasn't groggy when I woke up. I would definitely buy this product. I was not aware of this product prior to the study. I would absolutely recommend.

4 stars THIS PRODUCT WORKS AS ADVERTISED

This product seemed to work well enough for me. After using the sample bottle I'm willing to purchase a second bottle to give it a longer try over time. From using the first bottle I would say that it works at least as well as other products I have tried and in some cases perhaps better. More time using the product will give me a better idea how it compares long term to other things I have tried such as melatonin or other over the counter sleep aids.

5 stars EVERY NIGHT IS NOW A GOODNIGHT!

I have always had trouble falling asleep. Dr has previously prescribed sleeping meds but I usually stop taking them due to the Groggy feeling almost every morning after taking the prescriptions. So I decided to try something different and went with DaVinci Sleep Benefits and I'm glad I did. No more groggy feeling in the morning, I feel well rested and if I have a good nights sleep it usually results in a good start to the morning.

5 stars WOULD DEFINITELY RECOMMEND THIS TO FAMILY AND FRIENDS!

Love this product as it is a great sleep aid that is not addictive or harmful! Just a great mixture. My husband and I both often have trouble falling asleep and are uneasy with taking prescription sleep aids. I found that this product works best on an empty stomach and it helps us to fall asleep. They also do not make you drowsy the next morning which is great because others we have tried have made us drowsy.

★★★★★ 5 HELPS TO FALL ASLEEP AND STAY ASLEEP.

I take it when the sun goes down and finish minor things before going to bed. I fall right to sleep and only wake up once to go to the bathroom, usually it's three times at least, and I am able to go right back to sleep. Much better than Melatonin alone

★★★★★ 5 HELPS YOU RELAX

I do think this was very useful; however, I'd feel much more comfortable knowing I was taking a supplement that was FDA approved. I want to ensure what I'm putting in my body is what it actually says. For that reason, I don't think I'd purchase this again; unless a label is affixed to it.

★★★★★ 5 A FANTASTIC AND NATURAL PRODUCT FOR SLEEP :)

I have pain and its hard to get a good nights sleep, and taking sleep aids such as Benadryl based leaves me destroyed in the morning. WOO HOO thanks too DaVinci Sleep Benefits i get a restful full night sleep and no longer groggy. I did start with the recommended dose of 2 capsules but was way too much for me, I get a perfect night (which I haven't had in forever) on just one capsule. I found it also worked best for me taking about an hour before bed. Highly recommend and have already purchased.
