Q&A

A dietary supplement to support hormonal balance and weight management in men and women.\* DIMPRO® is a proprietary blend of DIM® (Diindolylmethane) with Vitamin E and Phosphatidylcholine. DIM® may help support a beneficial shift in the balance of estrogen, testosterone, and progesterone in both men and women.\* Good estrogen metabolites support overall health by functioning as free radical fighters, helping to eliminate unwanted materials, mobilizing stored fat (for use as energy), as well as weight management, exercise tolerance, development of lean muscle tissue, and by helping to stifle the effects of aging such as those found in menopause and prostate challenges.\*
