Few global events have had the immediate and far-reaching economic, financial, social, emotional and health consequences as the previously unknown coronavirus has had – and will continue to have in the coming months. Social restrictions are being eased, and we are seeing a return to the workplace, but the pandemic’s impact on physical and mental well-being may not be fully known for years.

Join the Travelers Institute, the Small Business & Entrepreneurship Council, the Institute for Veterans and Military Families and Accion for a conversation with Dr. Marcos Iglesias, Travelers’ Chief Medical Director, about supporting the health needs of your employees at this time.
