Categories: Chambered Sump System, Basins and Emitters

Manufacturer: French Drain Man

DESCRIPTION

Its 15 inches outside diameter only 24 inches tall with a 30 inch chamber length. It comes with a 1/2 hp sump pump fully assembled and plumbed with a 1 1/2" (1.5") stubbed discharge for easy hookup. Just dig a 24-inch in the depth sump pit and line it with a burrito wrapped drainage fabric. Set the Bad Seed on fabric, lay the corrugated pipe and discharge line, and cover with stone. We recommend 1-3 inch round rock. It's just that easy. COMES WITH INSTALLATION VIDEO (WATCH IT).
