Key Benefits

Current talent systems do not provide adequate or actionable insights into employee skills and proficiencies. As a result, companies are unable to optimize their workforce, maximize employee retention, or provide effective training.

“The “reskilling” of the workforce to reflect the future of work is a top agenda item in most companies today. Empath has a unique solution that allows an organization to inventory the skill and proficiency of their employees quickly, cost effectively, and with accurate inventory of an organization’s most important asset, its people, is critical to its future success”

Ralph de la Vega -- Chairman & Founder De La Vega Group
