Key Benefits

Current talent systems do not provide adequate or actionable insights into employee skills and proficiencies. As a result, companies are unable to optimize their workforce, maximize employee retention, or provide effective training.

Our Skills Intelligence Software as a Service™

- ✓ Works with any HR system already in a company
- ✓ Helps prepare your talent for growth & increased mobility
- ✓ Empowers employees to take control of their career by enabling upskilling & reskilling strategies

[Home](#)[Our Solution](#)[Key Benefits](#)[About Us](#)[Our Team](#)[Contact](#)

- ✓ No data requirements, we work with any employee data you may have
- ✓ Unlike other platforms, is a system of insights, not a system of record
- ✓ Lightweight & simple implementation
- ✓ Increases the effectiveness of your teams
- ✓ Helps you find hidden high-potential talent
- ✓ Reduces the cost of external recruiting, attrition, & onboarding
- ✓ Promotes privacy & empowers employers to make unbiased decisions based strictly on merit
- ✓ Allows you to Invest in targeted content & save on generic learning systems

Cost of Employee Attrition

Example from a Fortune 500 Company (numbers will vary per organization)

Our software can help mitigate costs associated with employee attrition
