Great product and service!

Just bought this set and has every knife you need to clean, de-bone and skin any size fish. Ordered during covid 19 and received in 5 days! Caught this Permit the day I received this set and it make quick work even with the armored bones of this fish. Highly recommended! Captain Marco

Bout time there's a great fishing knife set!

Just bought this couple weeks ago, actually 2 of them. During Christmas shopping I was feverishly looking for a good knife set for my old man for his boat, but shockingly I could not find one. Which I was amazed that there was not a knife set (never mind one with a case) made for fishing all the ones I found were more tailored to chefs or kitchens. So when I saw bubba come out with this via on the waters Facebook live I wasted no time purchases one for my old man as for myself. Now I've yet to use it but I have opened it up and am anxiously waiting to put them to the test!

Great knives!

I bought this set of knives a few weeks ago after the Bass Masters Classic Expo. I have not used them at this point but I have handled them and showed them off quiet a few times. I also bought the cordless electric set at the same time and I'm very pleased with it. I'm sure this set will not let me down either for their quality and non slip grip speaks volumes. I also have their turkey knife I received as a Christmas gift. Use it a few times as well and sharp like all of their knives are.

Its my newest Go Bag!

I like items that are multipurpose and practical. This Kit of knives is just what the Doctor Ordered! "Pun Intended"! I already own many Bubba Products but this is right up there with my favorite. I would recommend this item to any and all that are looking for the best ROI (return on investment) when it comes to a quality set of outdoor knives.

Broken tip

Bought the set because I love the bubba blades, I own 6 knives from the line, however, this set came with one of the tips broken. I don't know if it happened during shipping but there was no protective plastic tip on this one blade, the rest were perfect. It appeared as if it were just added to a set to make it complete, I little disappointed. With the program I used says no returns so I'm stuck with 1 defective fillet knife.

No, I do not recommend this product.
