Project Management

Preconstruction Services

GMI functions as an integral part of the preconstruction process working closely with the contractor to develop priorities, identify potential concerns, alternate options and implement practical cost-effective construction solutions. Our scope includes:

- Metal Stud Framing
- Load Bearing Metal Framing
- Metal Framing Prefabrication
- Drywall Installation
- Wall and Ceiling Insulation
- Acoustical Ceilings
- Doors, Frames and Hardware
- Engineered Trusses
- Division 10 Specialty Items
- Non-structural Demolition
- Engineered Exterior Structural Metal Stud Framing
- Exterior Gypsum Sheathing
