

Advancing earthquake science worldwide

 PRIMARY MENU

Online. One week. One mission: advance earthquake science

[Seismological Society of America](#) > [2021 Annual Meeting](#) > 2021 SSA Annual Meeting

2021

University of New Mexico will lead us in this new endeavor – striving to create a virtual meeting that will offer the same exciting exchange of research that you have come to expect from our annual gatherings.

Just as in years past, the success of our meeting depends on member input and ideas. Please get involved by **organizing a technical session**. Proposals are accepted from 15 August–1 October 2020.

What can you expect in the virtual SSA Annual Meeting? Some familiar features will remain: the latest research delivered through oral and poster presentations, networking opportunities, the Joyner Lecture and 5-minute Lightning Talks on the range of seismology. Plus, new features still under development will help us forge new connections and expand our understanding of earthquake science.

Look for the latest meeting information here and in future 3-Minute Updates.

As always, we want to hear from you. If you have ideas to share, please contact the co-chairs at program@seismosoc.org.
