 HIGHLIGHT MENU

[Seismological Society of America](#) > SSA Journals

Welcome to *BSSA* and *SRL* – the Society’s world-class journals that share the best in basic and applied research, databases, tools and public policy.

The *Bulletin of the Seismological Society of America* (*BSSA*) is the premier journal of advanced research in earthquake seismology and related disciplines.

The *Seismological Research Letters* (*SRL*) is a unique journal—the first to serve as a general forum for informal communication among seismologists, as well as between seismologists and those nonspecialists interested in seismology and related disciplines.

The Seismic Record is scheduled to launch in early 2021. This open access, online only peer-reviewed journal will feature short-form articles on the broad range of seismology and earthquake science.

Learn more about all three journals [here](#).

The Bulletin of the Seismological Society of America (BSSA) is the premier peer-reviewed journal of advanced research in earthquake seismology and related disciplines.

FOR BSSA AUTHORS

Seismological Research Letters (SRL) is a peer-reviewed journal with a broad perspective for communication among seismologists, engineers and earthquake hazards-policy professionals.

FOR SRL AUTHORS

The Seismic Record

Scheduled to launch in early 2021, this open access, online only peer-reviewed journal features short-form articles on the broad range of seismology and earthquake science.
