### Where Colleges Search and Students Apply<sup>SM</sup>

Our mission at College Engine<sup>TM</sup> is to provide student applicants and academic institutions with a transparent online marketplace. By doing so, we will enable students to access a more efficient process for application, while enabling academic institutions to contact and enroll students who may not have otherwise applied to their school.

## Colleges, **search & connect** with the **right students**.

Colleges create custom searches, then have the opportunity to **request a connection** with a student that meets their search criteria. If the **student accepts the connection request**, their full application is instantly sent to the college which can now engage the student with a college visit, further information and eventually even submit an admission offer for their consideration.
