How It Works

Download App

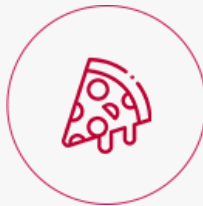

### YES! is your link to your favorite local restaurants.

Skip the wait at your favorite local eateries with carry out and Dine-In Table Ready™ options. YES! saves you time, fills your belly & supports local businesses.

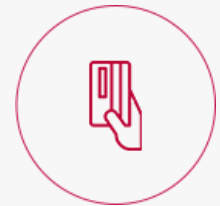

#### Food Made Local

Order your favorite dishes from the best local restaurants.

#### Food When You Want It

Order your favorite dishes from the best local restaurants.

#### Food Made Local

Order your favorite dishes from the best local restaurants.

## How It Works

# Find your favorite local restaurant.

We partner with the best non-chain restaurants around your city.

We make it easy to order carry-out and Dine-In Table Ready™ options from restaurants in your area.

## What Our Clients Say

**Matthew Speight**

"Whether I'm in town or traveling YES! Offers me the best local plate."

**Ready to order?**

## Hungry for something different?

YES! is your connection to great food at local, non-chain eateries. YES! is a unique app that lets you make a reservation—and place your order—at the same time. That’s the Dine-In Table Ready™ experience. Say no to the wait. Say yes to YES!.

The Dine-In Table Ready™ experience offers one-of-a-kind service when you need a table for two or more. Your time is limited, so reserve your food and table at the same time! Simply open the app, select the Dine-in-Table-Ready™ option, order, and pay for your food. When you arrive at your favorite local restaurant for that business lunch or dinner with family or friends, your table and food will be ready for you. No wait time, no ordering, no hassle. And since you pay in advance in the app, you can leave as soon as you’ve devoured tasty local food! Can any other restaurant app do that?

Looking for a meal to go? We do that too. Just tap the carryout option within the YES! app, place your order, pay, and pick up savory food ready to go you when you arrive.
