

Founder Story

For 28 years, like you, I got "clean" after using the bathroom by wiping. And accepted, as a necessary evil, the frustration of infinity wipes—you know, where you wipe and wipe and wipe, but the damn toilet paper still won't come up clean.

Finally, I tried a bidet—and, holy shit, it was a game-changer. They're cleaner, cheaper, environmentally friendly, and, most importantly, I was wiping just once and the toilet paper was coming up clean!

A year later I began obsessing over creating Whisper, a bidet that doesn't just clean your butt, but one that's designed to look great on your toilet, install in 10 minutes, and always stay clean while you're doing the dirty.

Not only will you be cleaner, feel fresher, and have happier, less irritated skin, but you'll also use a lot less toilet paper. And that's better for the environment and your wallet.
