Great quality wallet

I ordered this for my husband as part of his 40th birthday present. Order shipped quickly and he was pleasantly surprised. The wallet itself is definitely high quality. I'm very happy with it.

The One and Only Wallet You Will Every Need

Best Wallet I have ever owned. The quality of material is hands down the best. This is a wallet I will feel comfortable using for years on end and without the doubt of it ever breaking on me. Side note: best smelling leather

Great

I love the look of the wallet. The detail and effort that was put into the wallet is awesome. The only down side to the wallet is how tight it is when you first got it. It being tight is no big deal though it's made of leather it will break in. Overall very impressed by the quality and look of the wallet.

Excellent Product

Excellent! The company page was informative on the products and made the decision on which item fit best for me super easy. Shipping was prompt and the product came in a nice looking package. I was really impressed that the name of the associate that made it was included. The quality is incredible and cards and cash are easily retrieved. Overall great product and will highly recommend!

Very Impressed with my new Ascent

I just received my new Ascent wallet yesterday. I was impressed with Trayvax even before it arrived. They kept me informed every step of the way, from the production to the shipping. From the minute I opened the box, I could tell this wallet was made with quality products. The leather was real! Thick, beautiful, soft leather! Great saddle stitching and rivets hold this beautiful thing

together. You can tell this wallet will last for decades. I was able to get 10 cards in the wallet but it was pretty tight. I soaked the wallet in water to help. I can tell it's already stretching and molding to my cards. I plan on using some mink oil to condition the leather some since I used the water to help stretch it. That should keep the leather soft.

Thanks Trayvax for a great quality product!! I'll be a returning customer!

Ascent... I Have Reached The Pinnacle

Just got my Ascent wallet and am already loving it. I like things simple, practical, usable, and durable. This wallet exceeds in all 4 categories.

I carry two credit cards, drivers license, registration, and my health insurance card. They fit perfectly. Very easy to slide the cards out using the pull tab, and the license slides out easily with a minimal-effort thumb push in the opening on the front. The leather feels amazing in the hand, and the front-pocket fit is completely unobtrusive. Can easily be put on the inside pocket of a suit jacket, or even the shirt pocket. I am looking forward to many years of use. Thank you for a wonderful product.

minimalist dream

I've spent months researching wallets, trying to find the perfect wallet. Something more durable than the "leather" wallets found in department stores, and something simple enough to carry just a few cards and cash to tip. When I found Trayvax, I spent hours watching reviews online before I settled on giving the Ascent wallet a try. The checkout process was quick and convenient. Trayvax did a fantastic job of keeping me updated of where my wallet was and how long it would take to arrive. Once I received the wallet, I was very impressed by the attention to detail and the care taken to make sure my wallet was perfect. For the price, this is definitely the best wallet for a minimalist. I am so glad I waited till I found Trayvax. Will recommend to everyone I know.

Have issues with receiving something else and not my wallet.

No going to leave a review until items ordered are what the should be and after I receive them correctly.
