Belly Bands Sizing Tips:

1. Do not guess your dog's size. Measure your dog's waist in front of his back legs, like the diagram to the left.
2. If your dog is in between sizes, factor in their weight; i.e. a heavier dog, go up a size, a skinnier dog, go down a size.

Furry-Friend Review: **Saved my Carpet!**

These worked very well! Stayed in place and saved my place! I had two dogs staying with us for 5 days and they were

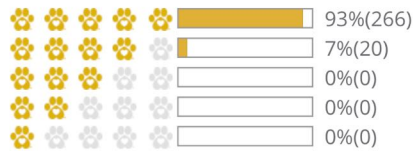

professional piddlers and markers! I did a walk through my house at night with a black light and found all their little markings and piddle spots, cleaned the stains up with a super enzyme cleaner and put these diapers on them and viola my carpet was saved! Walked through the morning after with the black light and all the piddle spots were gone! Thanks for making such a wonderful product! Worth every dime and I was being green by not tossing used diapers - just wash dry and wear :)

Must have Male Wraps!

Last October we rescued 16 & 17 year old dogs. They almost didn't let us adopt them because i knew they weren't potty trained, i didn't want dogs urinating in our house. I said I would get doggy diapers for them, they said they won't stay on them. We proved them wrong!! Both the Pet Parent Company female diapers and male belly band wraps have allowed our senior dogs to live happy lives!! Personally I add a pad inside so I don't have to wash all the time, but the wetness stays inside the wrap and my furniture stays clean. I am thankful for great products like this!!!

Good Product

They are well made, absorb wetness well, wash and dry just fine, and our Morkie doesn't mind wearing them at all. Good product!

Thank you for saving us from embarrassment!

We purchased the belly bands (size large) for our English Springer Spaniel puppy and they have saved us from SO MUCH embarrassment when we have people over. Marty is 7 months old and gets so excited to see new people, but he tends to piddle on people's feet... It is such a relief to know that he can show his love without ruining people's shoes!
