Trusted by the best brands

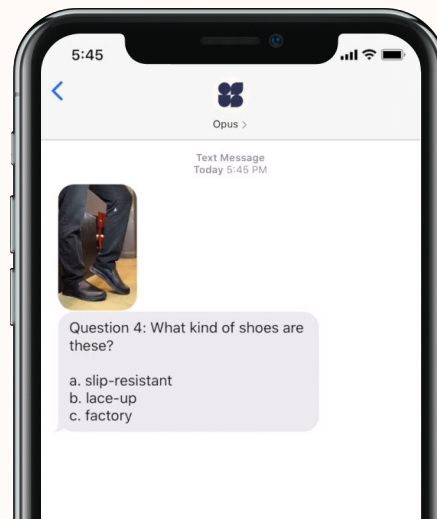

## High-impact

Traditional training platforms aren't built for frontline workers. Our proprietary technology uses interactive text message to train employees on the job.

## No emails or passwords

Downloads, browsers, and emails create obstacles. Opus is quick and lightweight for everyone. Employees engage quickly. Managers track their team seamlessly.

## For everyone

1 in 4 workers doesn't speak English; 1 in 5 reads below a fifth-grade level. Opus is audio-visual and multilingual. 100% of your workforce is included and compliant.

Our customers see adoption of 80% or higher within the first two weeks.

## Watch employees stack up skills.

Your frontline team has a blast earning skill badges and using their knowledge, while your managers spot high potential employees.

## Witness compliance soar.

Boost compliance from the crow's nest. Reward managers who have engaged teams and give simple, data-driven marching orders.

## Get addictive insights.

View compliance and engagement metrics from 300 to 30,000 feet. See how your business stacks up against companies of your size.

Expect completion percentiles in the 90s, like that beach weather you've been waiting for.

**Subject matter matters.**

Interactive training should be coupled with great content. We have curated 100+ hours of relevant, interesting, and informative training drills that follow well-respected guidelines.

## Our customers love us.

It's great having Opus as a resource to grow in our business. I've had to spend less time explaining new tasks.

Andrew Sherman  
General Manager

Opus is an investment in the long-term reduction of labor costs. Those hidden costs are real and significant.

Kait Goalen  
Executive Director

Opus has been the ultimate solution for us. The greater accessibility to training results in greater engagement.

Bineta Seck

The training has been very well received. People are learning a lot, including me. Thanks for your work.

Steven Hamill

# Meet your workforce where they are.

Chat with our passionate team of industry experts and take your training mobile-first.
