

ZIPNØSIS Platform & Partnership

CLINICAL SPECIALTIES

The Zipnosis platform was built with the flexibility to use in any clinical specialty. Start with the below use cases or define your own.

OPERATIVE CARE Support pre-op intake and appointments while offering post-op touch points, whether scheduled or on-demand.	CUSTOM SPECIALTY Adapt the platform to meet the needs of any clinical specialty, from oncology to dermatology.	BEHAVIORAL HEALTH Use intelligent interviews for depression (PHQ-9) and anxiety (GAD-7) that step-up into video visits.
PRIMARY CARE Combine telehealth interviews and synchronous modes to support annual wellness checks and primary care visits.	URGENT CARE Broad offering of managed clinical pathways used by 50 health systems nationwide.	OCCUPATIONAL HEALTH Offer occupational medicine visits to your internal team or employer partners.

This is virtual care built for the people who actually use it: **patients and providers.**

DEDICATED TEAM OF RELENTLESS ALLIES

- Customer Success
- Operations & Support
- Technical & Product
- Clinical Content & Quality
- Regulatory
