

## Return to work with certainty and **safety.**

We'll do the rest.

With ZipCheck, we manage the complexities of healthcare behind the scenes so you can check "maintaining occupational health" off your to-do list. From COVID-19 screening, to testing, to treatment and population management—we've got your back.

INTRODUCING ZIPCHECK

### Your end-to-end return to work solution

Designed to help employers check and maintain the health of their employees without having to worry about complicated healthcare solutions.

Our HIPAA compliant and HITRUST certified platform enables employers to:

Easily screen and test employees for COVID-19

Manage risk and employee populations

Quickly connect those who need care to certified providers

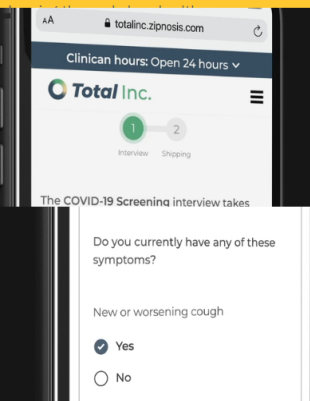

### Smart, hassle free experience

ZipCheck is easy to use: for both employers and employees.

We do more than just offer COVID-19 testing, we manage the relationships with the best-in-class labs and providers so

### COVID-19 screener to check for symptoms and risk factors.

Answers are carefully reviewed by certified providers. If no concerns are detected, the employee is cleared to work. Otherwise, if needed, a test kit will be ordered. There are two options for screening: on a regular on-going cadence set by the employer, or an at-need basis based on screener responses or previous test results.

Test kits delivered directly to your employees' doorsteps.

ZipCheck offers both diagnostic and antibody tests that are FDA Emergency Utilization Authorization (EUA) approved. A return label is included so employees can easily mail tests to CLIA compliant labs.

## decisions

With the ZipCheck dashboard, you can see which employees are cleared to work in real-time and know how many are symptomatic and staying home. This data can be used to make informed decisions that help build trust not only with employees but also with customers.
