Co-Packing

Our co-packing services provide growing businesses and established brands with a trusted partner in developing their nutrition bar or protein products. Trust our SQF Edition 8 certified facility and experienced team to co-pack your proprietary cookie, granola, energy bar or protein snack formula.

→ **Our Specialties:**

We specialize in gluten-free, plant-based foods made from ethically sourced ingredients including energy bars, cookies, granola, human-grade vegetarian pet treats, and other healthy protein products.

→ **Minimum Production:**

We require a minimum of 600,000 individual units annually, and 30,000 units per SKU per order.

→ **Our Facility & Equipment:**

Our brand new facility and recently upgraded equipment offer our customers an exceptionally clean, well-equipped solution that provides automated bar processing with improved safety and sanitation, enhanced quality, and increased efficiency. In July 2020, we invested in a new USA-made slab line, an Italian
