ExactGuide Endodontic Rotary Files

9 out of 10 referring dentists have experienced frustration in restoring endodontically treated teeth. SS White®'s Exact Endodontic File System is the instrument-of-choice for the general dental practice. The Exact Family is engineered for flexibility and to cut dentin in specific canal zones with great efficiency, while reducing the potential for over-preparation.

- Proprietary Heat-Matrix™ technology enables ExactGuide files to deliver optimal strength.
- Single file system offers ease of use and greater efficiency
- ExactGuide files can be sterilized for re-use for a lower cost-per-procedure
