THE CONCIERGE

Private Health Management Program

The Private Health Management Program is Sydenham's signature membership where we have the privilege to serve as your private medical attaché. By managing all your medical affairs under one roof, we can coordinate the critical interdependencies of all the different components – ensuring that you'll be safeguarded by the best medical care and treatment available in the world.

Not Your Average Concierge Program

Genomics Led Primary Care

24/7 access to our medical care providers. Further, we will arrange consultations at our Clinic that fit your schedule. Whether it be an after-hours emergency or hospital stay, our team will be coordinating and monitoring your care.

Omnia Program

Expansive baseline and diagnostic testing including detailed genomic and hormonal analysis. This allows for a more accurate and comprehensive assessment thereby enabling the Sydenham Clinic team to design a personalized plan for prevention and management of chronic conditions to optimize your health using the most cutting-edge resources available.

Personal Nutritionist

There is robust evidence that simple dietary changes based on a functional clinical approach can help reverse chronic disease and bolster vibrant longevity. Using scientific data to identify nutritional deficiencies and unique metabolic make-up in accordance with your genome, microbiome, and pathology, our integrative nutritionist will identify foods specific to each member that can treat the root cause of common ailments including low energy and cognitive decline.

Record Management

Medical records will be consolidated, transcribed, and securely maintained by a centralized team that you can access at any time to give you the peace of mind you deserve.

Best-in-Class Access

Through our exclusive arrangement with Texas Medical Concierge, we have built a network of the world's most renowned medical experts to ensure each member is provided access to the top medical institutions and specialists.

Emergency Support

Wherever in the world, you may be, no matter the time, we will be there to coordinate your care. From medical evacuations to urgent care to chartering medical flights, we will be there for you.
