Lightening the Load of Care

[Learn More](#)

Your Clinical Partner of Choice

To provide the best patient care, healthcare professionals need the right tools.

Tollos designs mobile lift systems that create a safer environment for healthcare staff to handle patient mobility. For us, safe patient handling is more

than a goal—it's a mission. By dramatically reducing injury risks, our products empower health professionals to consistently deliver better care to their patients.

Product Solutions

Ceiling Lifts

Ceiling lifts are permanent or portable devices that give clinicians a much safer way to lift, move, or reposition patients. Tollos device experts will work with facility managers to evaluate the unique needs of facilities, from brand-new buildings to retrofits, and recommend a long-term plan that maximizes staff and patient safety.

Cirrus Lift

The Cirrus® Ceiling Lift is one of the industry's smartest, most versatile ceiling lifts on the market. This lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury.

This lift offers a wide range of lifting/repositioning options, from turning to lifting to toileting, the Cirrus does it all.

Pinnacle Lift

The Pinnacle Ceiling Lift is one of the industry's few single-strap ceiling lifts that can handle 1000 lbs in the market. Unlike other units, it doesn't require the use of two motors, so significantly reduces the risk of injury to your patient. There's no chance of rebalancing that may be necessary with two lifts hoisting one patient. Your patient is safe and secure with a system that centers and balances itself without issue, maintaining your patient's dignity.

Stratus Portable

The Stratus® Portable Ceiling Lift has been completely re-engineered to meet your needs. With all metal gears and an efficient motor, the Stratus combines durability with intuitive diagnostics to provide all you need in a portable lift. Stratus is perfect for those facilities needing a long life, various load, reliable lifting solution.

The Stratus lift is designed to meet the rigors of daily, frequent use.

Mobile Lifts and more

All Tollos Lifts are proudly manufactured in North America

UltraLift

The Ultralift® Mobile Lift is one of the industry's safest, most user-friendly patient lifts on the market. This lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury.

The Ultralift is also suitable for effective gait training and general rehabilitation activities.

Titan

All of your patients deserve treatment that maintains their dignity. The fact is, some patients are more challenging than others.

With the Titan Mobile Lift, you can lift, move, reposition, and turn your bariatric patients without strain to you or fear of injury for them.

Protect yourself and protect those your care for.

Vehicle Transfer

The Ultralift® Vehicle Transfer Lift offers a sleek, low profile design, providing quick and easy transfers into and out of all types of vehicles. This lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury.

The Ultralift VTL is perfect for working in tight, narrow vehicle openings, but also performs in other lifting situations.

Steady Aid

The Steady Aid® Sit-to-Stand is one of the industry's safest, most ergonomic patient lifts on the market. This device includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury.

The Steady Aid offers a smooth, fluid transition from a sitting position to a standing position without a lot of fuss.

Ultramove

The Ultramove® is a non-electric transfer device that allows patients to safely rise with minimal assistance. This device is versatile enough to get your patients from one place to another, but is optimized for patient comfort and safety, as well as reduced caregiver injury.

The Ultramove is also suitable for as an ambulatory aid.
