In a perfect world, everything you owned would output and broadcast the most stunningly realistic high-definition ever seen. Unfortunately, today's electronics market is a mixed combination of technologies. Your VCR may be just a square peg into a round hole- or an analog plug into a digital port. So what can you do when your devices don't match? VGA, RCA, S-Video, USB, or even if you're trying to downscale, FireFold has an HDMI converter for you.
