#### Effective

I bought my Fit a couple of years ago. Did not do much as I made all the usual excuses - too busy, too tired, traveling, etc. etc. Just recently I got serious and got into a regular routine. Amazing how effective and easy this system is. Lost a bunch of weight and inches in the right places. Also, I saw a negative write up of how difficult it is to setup. Could not disagree more. Very easy to set up, especially in a confined space like the one I have. I wish this machine was around when I was at Sea -- USN (ret)

### Everything I expected and MORE!!

After years of wanting a Total Gym, I purchased one six months ago, spurred on by my inability to use my gym due to Covid. The Total Gym FIT is a superb piece of exercise equipment, and I have had many down through the years, including ski machines, treadmills, rowers and multi-station olympic weight training setups. The Total Gym allows me to engage in vigorous resistance training without the percussiveness of free weights, which were beginning to bother me due to the combination of my age (64) and the fact that I still needed heavy weights for a truly vigorous workout. I really love the workouts on Total Gym TV as well. The Total Gym allows me to really push myself without the worry of injury, and I get a great aerobic workout as well as great strength training. The machine is high quality and the customer service is superb as well. The price is totally reasonable for the value you get. Don't delay as I did. Grab a Total Gym now!!!!

### Love the total gym experience

I love working out on the tital gym. After "playing" around with it the first day, I watched the intro video. I iike that you can adjust the intensity of the workouts very easily. After a few times using it, now I go from one exercise to another quickly, adjusting the intensity level as needed. Im still doing the basic workout which is fine for me. I get a good sweat going, get sore but no pain, and am feeling and starting to see results after 5 weeks. It's actually fun working out. Soon I'll start adjusting the workout, adding other exercises so as not to become stale. I definitely recommend the total gym.

### Convenient and compact home gym

I love my Total Gym. I can use it for a just a few minutes at a time throughout the day. It's easy to adjust the height and to swap out attachments. Be careful when unfolding it though, I lost my grip and it slammed down on my foot. Very painful. Other than that, it is great!

**Pros** Easy to Use, Easy Storage, Strengthens, Sturdy

**Cons** Hard to Set Up

**Best Uses** General Fitness

**Yes**, I recommend this product.

### Great for all levels of users

Easy to assemble and use. Great for all levels of users. My only complaint is, I ordered some of the accessory pieces and their was no instructions on how to connect them, it was a little bit of a guessing game. Overall so far so good. It's perfect for me who is getting back in to working out after years and also for my son who had been going to the gym daily before COVID.

**Pros** Easy to Use, Strengthens, Sturdy, Easy to Set Up

**Cons** Bulky

**Best Uses** Strength Training, General Fitness

**Yes**, I recommend this product.

### still have the original

Bought one when my son was one. He is 29 now, I still use it religiously and I cannot say enough about this piece of equipment. Nothing has ever broken!!!I All the times I have moved, this is the one thing I will never part with ever.

### Finally getting Fit

I am 72 and unfortunately I've let myself go, fitness wise. 2 years into retirement and already I'm feeling the affects of not working. Having been a Postal Letter Carrier for 45 years, I was fairly fit. I purchased the Total Gym Fit Signature Series Plus out sheer luck. I'd started going to the gym just before they closed them down due to the

the gym just before they closed them down due to the pandemic. So when an Infomercial, that I'd seen over the years, and the great offer it was promoting, it was a no brainer. I'm starting out slowly, but I've started. And that's a plus.

**Pros** Easy to Use, Quiet, Strengthens, Sturdy, Easy to Set Up, Comfortable

**Cons** None

### Total Gym Rating 5-Star

I haven't started all of my exercises yet, but the few that I have tried is going to give me the results I am looking for. Great machine, too bad I didn't know about it before now.
