Reviews

Ninja® Foodi™ Power Pitcher System Blender has Total Speed Control with smartTORQUE™ to power through at any speed and never stall. The Power Pitcher is a blender, smoothie bowl maker, food processor, and dough mixer. The Power Nutri™ Cup with to-go lid for smoothies. The Power Nutri™ Bowl with Power Paddle powers through frozen foods with less liquid for thick smoothie bowls. 1400-peak-watts.

- The blender system that crushes, food processes, makes smoothie bowls, and dough.
- smartTORQUE™ is designed to power through heavy loads without stalling or the need to stir or shake.
- Total speed control. Start slow and ramp up as needed for precision chopping and mixing.
- Power Pitcher: Crush, chop, and make smoothie bowls and dough conveniently in one pitcher.
- Power Nutri™ Cup with better breakdown for smoother extractions, smoothies, and frozen drinks. (vs. BL480)
- Power Nutri™ Bowl with Power Paddle powers through frozen foods with less liquid for perfectly thick smoothie bowls, nut butters, and blender ice cream.
- 6 preset Auto-iQ® programs for one-touch smoothies, extractions, bowls, spreads, chopping, and dough.
- Powerful 1400-peak-watt power-dense motor.

1. The blender comes with many options such as smoothie, chop, dough and spread. 2. The chop function worked well with vegetables like onion and spinach and it chopped it very finely. I was so pleased. 3. The smoothie and spread option worked very well too. I made hummus and it blended and made it so creamy. The smoothie jar crushed ice without any issues. 4. The blender can be used in the manual mode or the automatic mode. When the automatic mode is triggered, it does the thinking for you and pulsates accordingly. 5. The only down side in my opinion is it made a lot of sound for the smoothie and spread modes. Besides that it did a great job. 6. This is definitely worth investing your hard earned money on.

processor, so I was intrigued to see something do it all. With so many different functions I was a little intimidated but it comes with quick start guide that walked me through the basic get to know you stage and it also comes with a handy recipe book!! I'm loving the auto mode, the built in timed programs makes blending a breeze and it's always on point. If you're not comfortable with that it still has the basic manual feature too. I have found that it is a bit on the loud side but that for me was to be expected so no points off for that. My family has already tried smoothies, salsa, mango tango bowl (from the recipe book) and my all time favorite, a simple frozen coke! I'm really excited to continue to use its versatility in the future. The options for this machine are limitless. Two thumbs up from me, highly recommend!

long to blend. The suction cups on the bottom hold it in place but alittle hard to get off the counter. I don't plan on moving mine around so its not a big deal. Its not too big to leave on the counter. Clean up was easy and being plastic its lightweight but still durable. The pitcher holds nine cups so you can make alot at one time. This is a top notch all in one blender that will be your best friend in the kitchen. Making cookie dough, blending smoothies, chopping vegetables or nuts just got easier. The recipe booklet has step by step directions for some delicious dishes. Absolutely love this and would recommend to anyone that's a foodie or not.

Pitcher, a 24oz Power Nutri Cup, a 14oz Power Nutri Bowl with Power Paddle, motor base with suction cups, Power Pitcher lid, spout lid, storage lid, 3 blades(dough, stacked, hybrid edge) and cleaning brush. The blender, cup and bowl are lightweight. The motor itself is a bit heavy. The look and overall design is very sharp. It blends well with my other appliances. The blender comes with a recipe book which helped me with selecting settings for my own recipes and daily use. I notice with the pitcher I wasn't able to use the extraction setting but I was able to with the nutri cup and bowl. I am amazed on how well the consistency of my smoothies and extracts were. The extractions were amazing and my kids loved it. The smoothies were easy to drink and had no chunks. I love using the chopping IQ setting. This has been a game changer for me in the kitchen. With this setting the vegetables need to be cut in 2" pieces which saves me time in the kitchen. This blender is by far the easiest blender I had to clean. Since the blades are removable I had no issues and no food particles lingering on the bottom of the pitcher. There is no excess water getting trapped either. The pitcher lid can only be closed when attached to the pitcher. I did not experience any issues with leaks while using the blender. The motor base has suction cups attached to the bottom. This is great and also a pain to pick up and move when not in use. Luckily I have enough counter space to keep in place. The blender is loud when in use but tolerable. The Power Nutri Cup has a Power Paddle that helps move the ingredients for blending. No more removing from motor to shake or open to stir. Overall, this blender is amazing and has helped me with not only cutting time with food prepping but also making nutritional drinks for my family that we can all enjoy.

and the countdown on run time is a huge plus. It takes the guess work out of how long to blend something. Some of the settings are really loud though. Not a deal breaker, just unexpected. As with anything, when making dough, you will need to use a spatula to make sure everything gets mixed in, otherwise you will end up with flour stuck to the sides and not mixed it. The only thing that could make this better would be a release button for the suction cups on the bottom. It can be a little difficult to get off the counter.
