## Wilkie

Eastern Bluebird Fade

Starting at \$95, including prescription lenses  
(save 15% if you buy two prescription pairs)

Select lenses and purchase

Try at home for free

There's no need to mess with a good thing. Wilkie is our version of a never-fail frame, with a sloped browline and rectangular lenses that flatters any face.

- Made from hand-polished cellulose acetate
- Akulon-coated screws for durability

### Wilkie is available in extra narrow, medium, and extra wide

Choose a width that corresponds with your own face width, e.g., pick a narrow frame if you have a narrow face (and so on). If you're still unsure of your size, select a few different options in a free Home Try-On.

Find your width
