**Gauge**

Gauge is a powerful analytics platform that merges data together from multiple sources into a single application all with amazing speed. Organize, sort, and display information in ways that were not possible before.

**Relay**

Relay aggregates multiple messaging programs into a common interface, offers powerful grouping and search capabilities, and features a mobile app for convenience in and out of truck or office.

**Torque**

Torque connects all the services and applications that you use together and normalizes the flow of data between them in a simple and straightforward manner. Be in control of your systems and your data.

**Wire**

Wire is an innovative product developed to manage your organization's integration processes. Powerful, intuitive, and built on the latest technologies, Wire converts existing formats to API for dynamic application.

LEARN HOW

## Gauge Reveals What Your Data is Trying to Tell You

Data, numbers, and statistics are all part of your business' story. What are they trying to tell you? Your revenue is up yet you're not turning as large a profit as you think you should be. You need to report spending to colleagues but have a pile of spreadsheets blankly staring you in the face and no idea where to begin. These are familiar tragedies that can become happily ever after tales with Gauge. Gauge connects multiple systems together in one place, correlates the data between them, and displays results in an easy-to-understand, beautiful fashion. Reports are compiled quickly and consistently so you can trust what you're seeing is accurate. Make sense of your data and "Gauge" your decisions for your business based on facts, not just assumptions.
