Overview

Same Litter-Robot—Now WiFi-Enabled

The AutoPets Connect app gives you additional freedom from your litter box duties by allowing you to view the waste drawer level, get notifications, troubleshoot, and see recent usage history for insights into your cat's health. The app is compatible with Apple mobile devices with iOS 10.0 or later and Android mobile devices 8.0 or later, and requires a 2.4 GHz router signal and IPv4 router (5 GHz band not supported; unable to connect to IPv6 routers). As with any Litter-Robot, you never have to scoop again: After the cat exits, the patented sifting process automatically separates the waste from the litter and deposits the clumps into a waste drawer for easy disposal.

Connected Litter Box

Keep the litter box out of sight but not out of mind. Check the waste drawer level from wherever you are. Know that your cat always has a clean litter box with its self-cleaning technology.

Features & Benefits

Never Scooping Just Got Easier

Turn on push notifications to know when your Litter-Robot needs your attention. Customize alerts to find out when it's cycling, the drawer is full, or the unit is paused. You can also connect multiple Litter-Robot units to the

app, making your life that much easier!

Features & Benefits

Multiple Cats? No Problem!

The Litter-Robot is great for multiple-cat households. And now with our Litter-Robot app, you can view your cats' usage insights and see trends in their bathroom behaviors.

Features & Benefits

Efficiency: Save Time And Money

The patented sifting process only removes the clumps, preserving clean litter and saving you time. Reduce litter usage by up to 50%. No special accessories required.

Features & Benefits

Odor Management

The Litter-Robot sifts waste within minutes to greatly reduce unpleasant odors. Our carbon-

filtered, fully enclosed waste drawer is an easy-to-empty design (use any bag). It's time for your visitors to stop smelling that litter box —and you too!

Features & Benefits

Safety First

With our cat sensor technology and pinch detect safety system, never worry about your cat using the Litter-Robot. And if your unit stops for any reason, receive a push notification to inform you what's going on.

Features & Benefits

No Special Accessories

With the Litter-Robot, use any clumping litter and consider yourself done! No need to purchase special consumables—but if you're looking for high-quality litter or custom-fit waste bags, check out our [accessories](#).

Drawer Full Indication

The Litter-Robot notifies you when the waste drawer is full.

Sleep Mode

The 8-hour sleep mode stops the unit from cycling during the night.

Automatic Night Light

The automatic night light helps elderly cats during night time

visits

Adjustable Cycle Timer

Choose a 3, 7, or 15-minute delay before the unit cycles.

Control Panel Lockout

Lock out all button functions on the control panel.

What's In The Box?

Along with your fully assembled Litter-Robot 3 Connect, the box will contain the following:

1 Carbon Filter

3 Waste Drawer Liners

One 15 Volt DC Power Supply
