THE JOURNEY

Personalized, guided programs

Structured, growth-oriented preparation, exploration, and integration to help you get the most out of your experiences.

HOW IT WORKS

THE BASICS

Psychedelic Therapy with Dr. Paleos

With over a decade of experience in both research and clinical settings, Dr. Casey Paleos is one of the leading experts in psychedelic medicine.

- Principal Investigator – MAPS MDMA-Assisted Psychotherapy Phase 2 and Phase 3 Clinical Trials
- Study Therapist – NYU Psilocybin Cancer Anxiety Study
- Principal Investigator – NYU-Bellevue Ketamine for Depression Study

In your first Mindbloom program, The Basics, the pioneering psychiatrist and professor teaches you how psychedelic therapy works and guides you throughout your journey. Learn how to set intentions, navigate your experiences, and integrate through journaling—and unlock the potential to heal and grow from your experiences.

A RECENT EXPERIENCE

"I 100% recommend Mindbloom to anyone who has been stuck with anxiety, depression, or stress and wants to try something new. I've come to see old problems in new ways and feel like I have a better perspective on the world."

Mattan G. – Professor in New York City
