

Golden Prince® Wintercreeper

Euonymus fortunei 'Monce'
Sku #3430

A low-growing, hardy and colorful evergreen shrub with striking, bright golden yellow-edged new foliage that matures to green, then develops rich winter color. Beautiful contrast in mixed borders. Well-suited for use as a groundcover, low hedge, or simply as a landscape accent. Spreading stems can be trained to climb up a wall or trellis. Evergreen

Light Needs **Partial to full sun**

Water Needs **Water regularly - weekly, or more often in extreme heat.**

USDA Zone **4 - 9** 🌱 Grows in your zone: **9** [Change](#)

Design Ideas

One of the workhorse foundation plants to anchor the house to the landscape. Plant with consistent spacing to create a hardy, colorful, large scale groundcover that will provide colorful winter foliage when deciduous trees and shrubs are bare. Plant along walks and driveways, in mixed borders and massed as a hedge or barrier. Feature as a golden spring specimen in front of taller Lilac.

Companion Plants

Juniper (Juniperus); Weigela (Weigela); Spirea (Spiraea); Potentilla (Potentilla); Boxwood (Buxus)
