

MASTODON

FORESTRY MULCHERS

Nothin eats trees like a Mastodon

www.mastodon.com

Introducing Mastodon Forestry Mulchers with SmartDrive technology. Mastodon heads offer the highest performance of any mulching attachment ever produced for skid steers and compact track loaders with a class dominating 160cc variable piston motor and a direct drivetrain.

Ultimate Cutting Performance

Each Mastodon cutting tooth has an independant feed control system. This controls the feed rate and greatly reduces stalling the drum. The carbide tooth has the performance of steel with the strength and longevity of carbide.

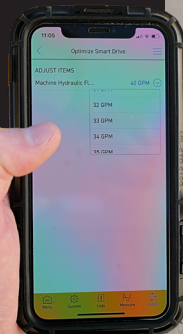

E-TECH
Smart Drive

Bluetooth  Shift Ajustment

Power is managed by E-TECH an exclusive ECU smart drive system that adapts and controls the displacement of the motor to produce instant torque and superior mulching performance in every application.

- Bluetooth tuning with a smartphone.
- Built in GPM tester.
- Track Operating Hours
- Track Total Mulcher Hours
- Track Overtemp Events
