

Microfiber Towel with Lanyard

- Double stitched attached 6" lanyard easily slides over wrist to help prevent accidentally dropping towels into areas where FME issues are a concern.

Item No	Description
WIPE-02B-FME	Yellow, 16" x 16"

Microfiber Mitts

- The perfect combination of form and function for decon work.
- Reversible microfiber mitts are made from the same material as our towels, ensuring excellent absorption and cleaning function without the risk of leaving lint or other residue.
- Available in yellow and green for easy segregation and work area designation.

Item No	Description
WIPE-03A	Terry Type, Green
WIPE-03B	Terry Type, Yellow

Microfiber Towels

- Made from ultra fine, strong and virtually lint free synthetic filament that is designed to pick up dirt, dust, grime and contamination while leaving no residue.
- The filaments structure allows wiper to pick up 11 times its own weight, making it an ideal cloth for decon jobs while reducing rad waste costs during disposal.
- Available in yellow and green for easy segregation and work area designation.

Item No	Description
WIPE-02A	Green, 16" x 16"
WIPE-02B	Yellow, 16" x 16"
WIPE-02E	Yellow, 16" x 24"
