

# This is not **just** a Browser

This is Stack

↓ Download now

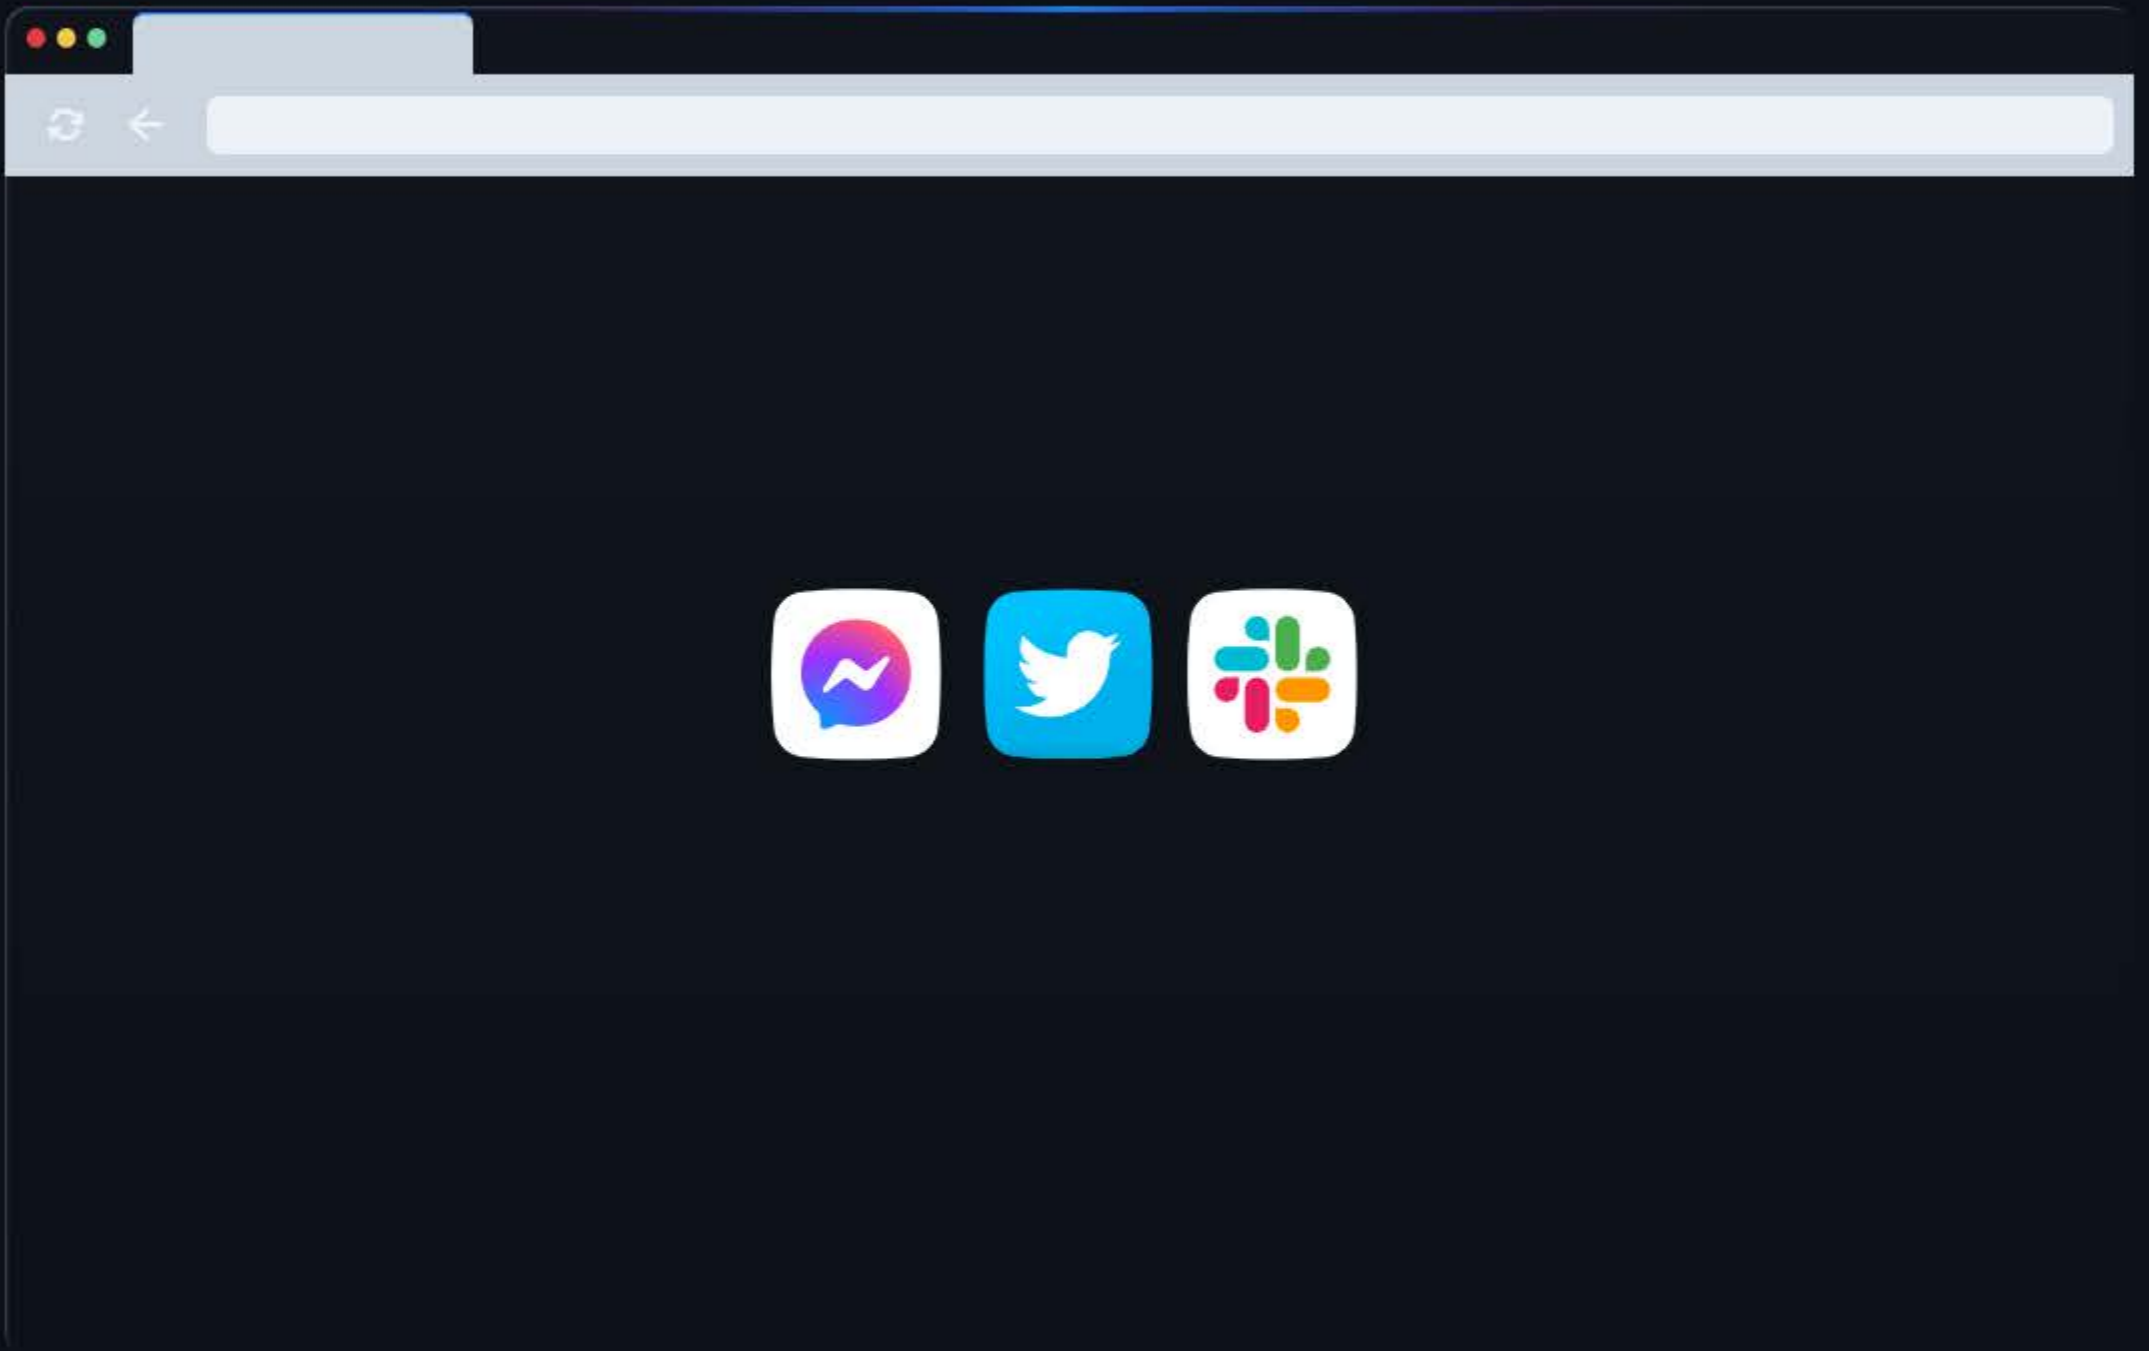

Scroll down

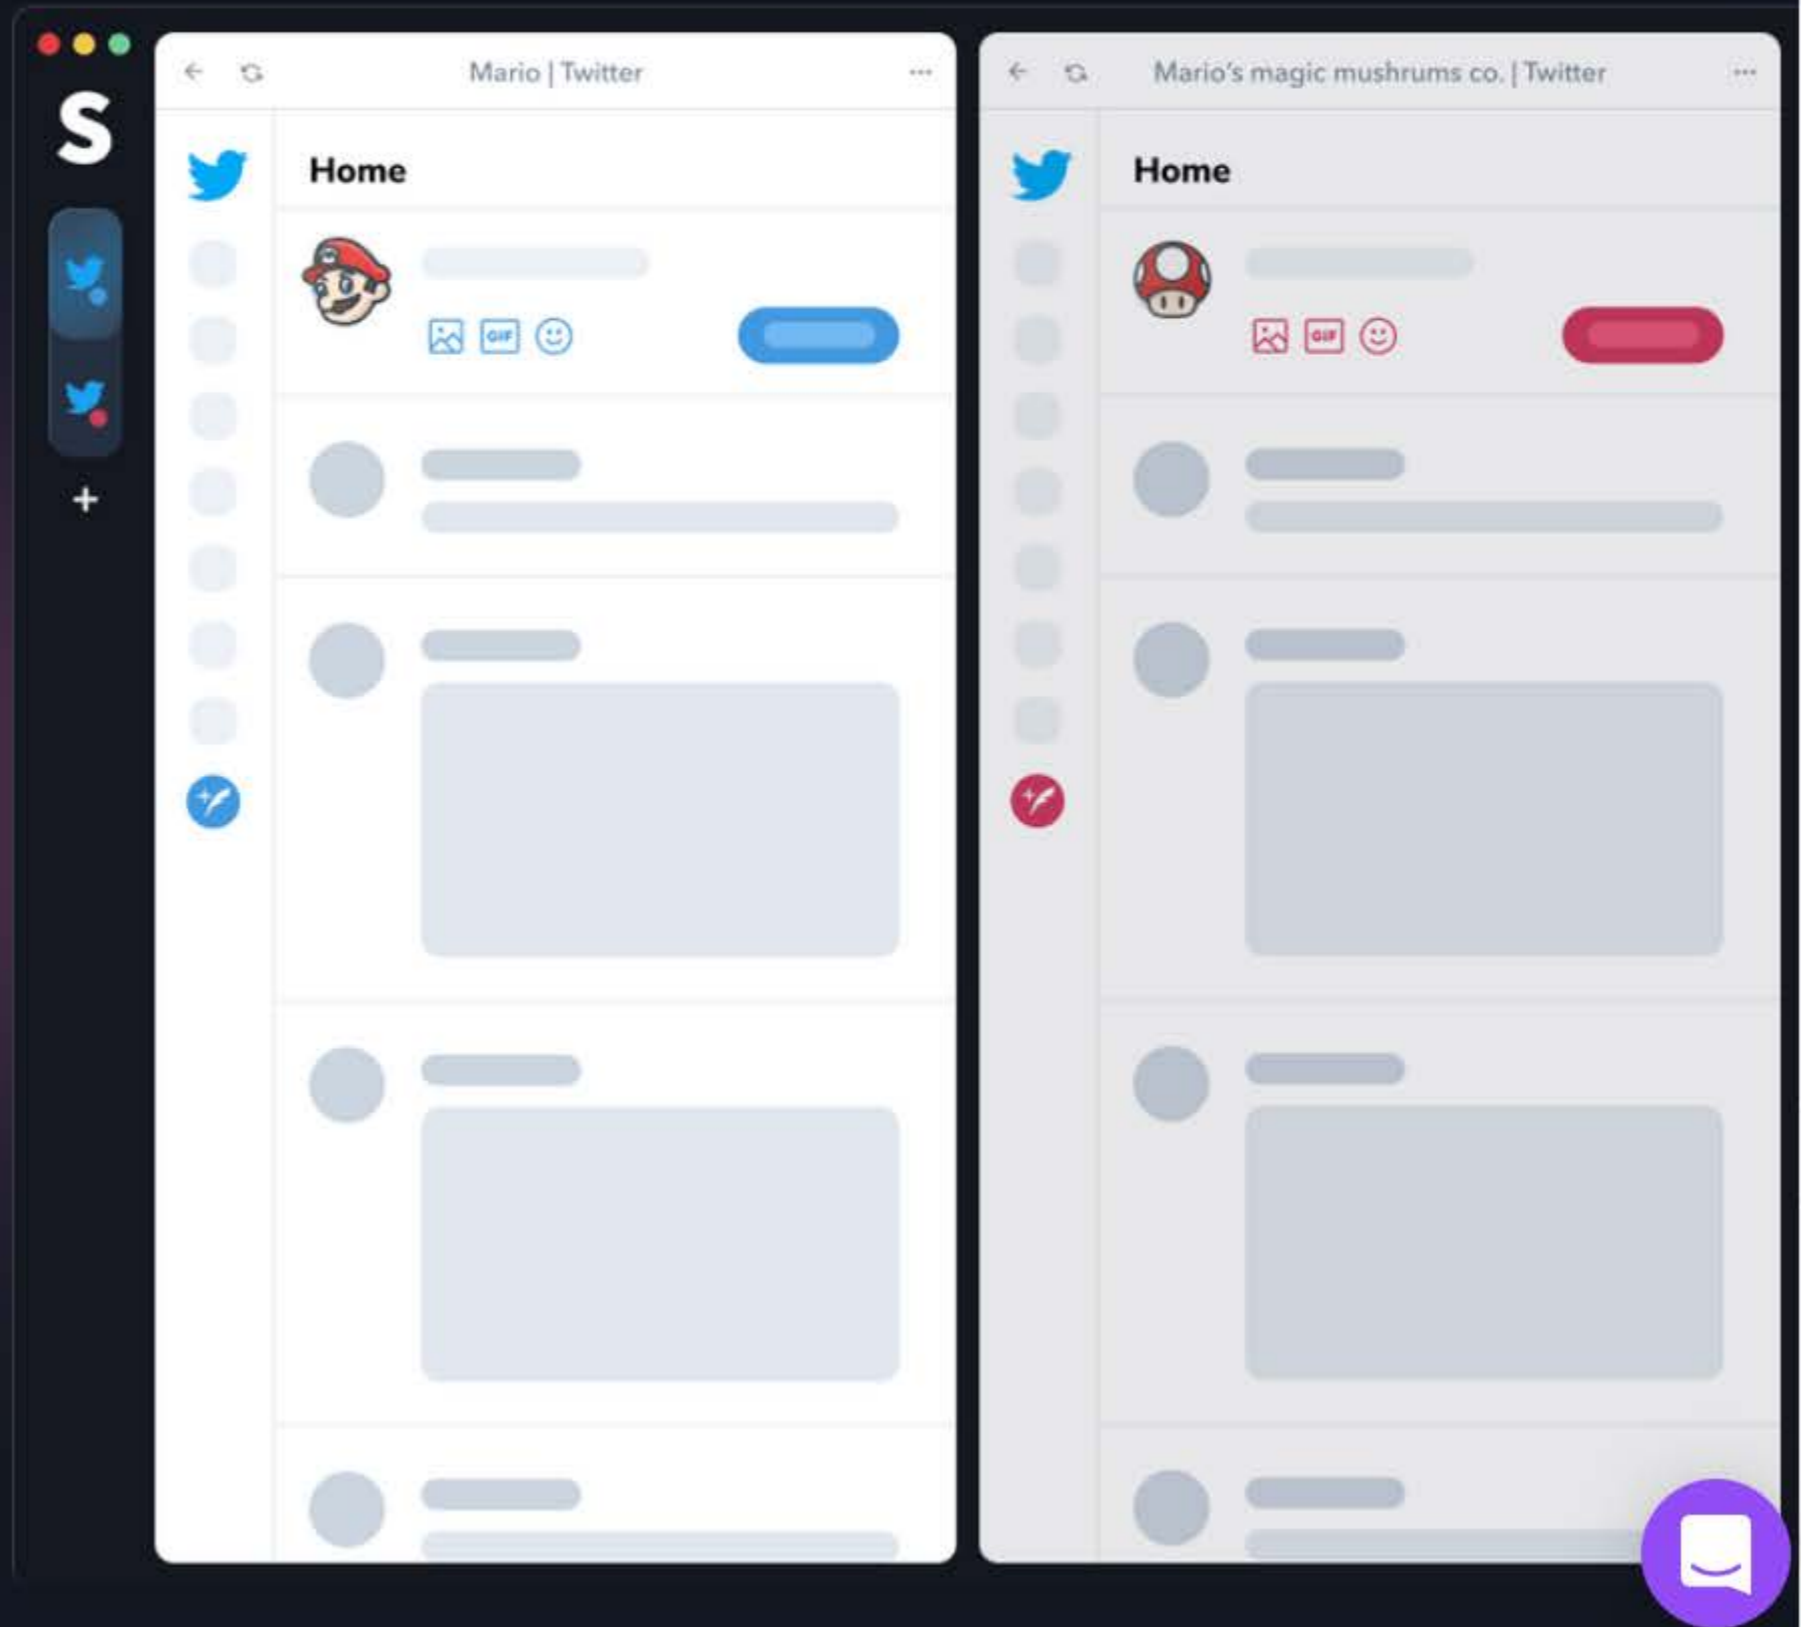

# But it can open web apps

Like the conventional browsers you are using right now

# Open multiple accounts side by side

From the card menu, switch on the private mode and start with a fresh session. Open as many accounts of the same application as you need.

**At the end of the day it's not about Stack and what it can do,**

**It's all about you and what you can do with Stack.**

# can do, It's all about you and what you can do with Stack.

Stack is not a browser, neither it's just a computer program, but it's an idea, the idea to make our new virtual home pleasant and human.

We just started with the browser.

↓ [Download Stack](#)

# Install Stack On Windows

If your download does not start automatically, please try again.

- 1 Open Downloaded File
- 2 Click **More Info** and then **Run Anyway**  
 What is this? Our Windows license is new and microsoft needs validation

# Install Stack On Windows

If your download does not start automatically, [please try again.](#)

## 2 Click [More Info](#) and then [Run Anyway](#)

**What is this?** Our Windows license is new and microsoft needs validation

## 3 Enjoy Stacking! ❤️
