GOTENNA PRO FIELD CASE

**INTRO**

The Pro Field Case is a durable carry case specifically fitted and designed for the goTenna Pro and Pro X mesh networking devices. The product provides robust protection while offering secure mounting options -- all in a lightweight, low-profile package that won't slow you down.

## TECHNICAL FEATURES

- 1 | Ruggedized shell
- 2 | Status LED window
- 3 | Power button recess
- 4 | Integrated dust door
- 5 | Durable pull for device removal
- 6 | Form-molded for secure fit
- 7 | Ballistic nylon edge protection
- 8 | MOLLE-compatible mount straps

## PULL SOLUTION

A heavy-duty overmolded paracord pull provides an easy means for device removal without applying force to the antenna.

## LED PLUG

A removable plug covers the status LED for situations where light leak is a liability.

## **DUST DOOR**

An integrated dust door protects the USB charging port while still allowing in-situ charging.

**MOLLE-COMPATIBLE  
BACKER**

Reinforced  
back panel

Durable double-  
stitch strap  
construction

MOLLE-compatible  
ballistic nylon straps

Snap lock

## ALTERNATIVE CARRY OPTIONS

### ADAPTER

Splined MOLLE adapter allows compatibility with other carry attachments.

Radial spline interface allows cant adjustment for comfortable carry in any orientation.

### CLIP

Adjustable width clip attachment easily attaches to any size belt, including duty belts.

### PADDLE

Paddle attachment hugs pant waist to provide a secure and comfortable way to carry with or without a belt.

## HIGH VISIBILITY OPTION

Integrated retro-reflective materials enhance visibility and facilitate location of product.

**FULL EDGE ACCENT  
OPTION**

A continuous band of retro-reflective material outlines the product silhouette, both front and back.

**EDGE HIGHLIGHT  
OPTION**

Bands of retro-reflective material are wrapped around both vertical edges.
