RESTORATION PROGRAM

We believe healing occurs through dignity, respect and accountability. BeLoved provides resources to assess each resident's physical, mental health, and spiritual needs. We offer group counseling using DBT, DBT for Substance Use Disorder, trauma processing, 12 Steps for Recovery, and other therapeutic and life skills groups. Each resident works individually with a DBT Licensed Counselor and a Case Manager to identify their resilience and create a plan for growth towards a healthy life.

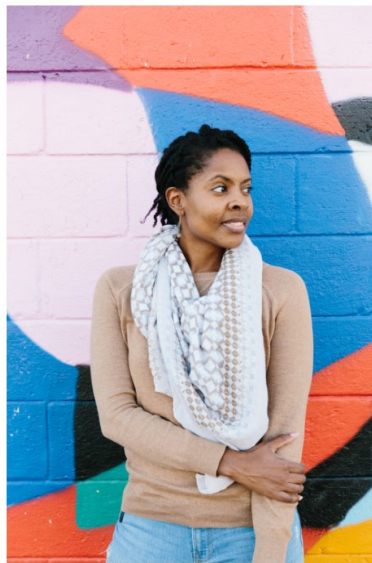

EDUCATION & EMPLOYMENT

An individual action plan is created for each resident to assist in accomplishing her educational and employment goals. This includes GED programs, tutoring, continuing education, job readiness training, and assistance with job placement.

HOUSING PLACEMENT

As a resident prepares to transition out of the BeLoved Home, we will assist her in finding affordable and healthy housing. Residents may also qualify for assistance with deposit and first months rent.

GRADUATE PROGRAM

We continue to serve our graduates with quarterly case management, weekly support groups, scholarship opportunities, and resources.

COMMUNITY ADVOCACY

Adult women in prostitution are viewed as criminals. BeLoved is dedicated to seeing a community that views survivors as leaders.
