

SOLUTION OVERVIEW

LIGHTHOUSE CloudCompass

for Microsoft 365

A membership program designed to keep you ahead of change in the dynamic cloud computing landscape.

MITIGATE LEGAL AND COMPLIANCE RISK CAUSED BY CONTINUOUS CHANGE IN CLOUD SOFTWARE.

Challenges We Address

Cloud based software such as Microsoft 365 is always evolving. A robust stream of software updates are continuously being pushed out, and that's how Microsoft is constantly improving M365 - essentially, you always have the most recent 'best' version of the software. But this rapid rate of change presents real risks for compliance.

Staying abreast of the technology changes in order to manage legal and compliance programs is not new, but the fast-paced nature of that pursuit now requires exponentially increased time-allocation and a deep focus from a unique mix of technology and legal expertise. With every release, it's critical to utilize those dedicated resources to uncover updates with material impacts and summarize actions required to assure defensibility, mitigate compliance risk, and maintain day-to-day legal operations, which is difficult for organizations to source and manage alone.

Benefits We Provide

CloudCompass is a membership program designed to prepare and enable businesses to stay ahead of changes specific to compliance in the dynamic M365 cloud environment without shouldering the lift and cost of internalizing specialty resources. CloudCompass provides timely, curated updates prioritized by risk, backed by expert support to keep you informed and able to maintain compliance, and defensibility mitigate risk of your legal programs in M365. Fueled by M365 product experts, legal and compliance SME's committed to continuously monitoring, analyzing, and testing all aspects of M365 releases to pinpoint changes impacting legal and compliance. Combined with tailored risk assessments and actionable recommendations to resolve issues as quickly and efficiently as possible creates a one stop shop approach to reliably and effectively maintaining legal, compliance, ediscovery, and information governance programs.

CLOUDCOMPASS MEMBERSHIP INCLUDES

READINESS

R2 Report™

Our industry leading Risk and Recommendations (R2) Report provides a risk assessment and recommended actions for every M365 release on the roadmap.

ENABLEMENT

Content Library

Articles, documentation, and best practices authored by Lighthouse experts, some of the best and brightest in the industry.

EXPERTISE

Annual health check

Assessment and validation of your legal and compliance workflows.

Annual workshop

A half-day review of trending topics, best practices, and emerging tech.

Consulting

35 hours/year to use for on-demand expert advice or credits towards advisory projects.

WHY LIGHTHOUSE?

For 25 years, our legal and technology professionals have helped our client's compliance and legal teams assess risk, to determine reasonable, and defensible approaches to solve increasingly complex enterprise data challenges. Our elite 20-year partnership with Microsoft affords us a level of product knowledge that is unmatched by any other provider. With our long-standing and proven track record of success combined with our deep-seated partnership with Microsoft, Lighthouse is the leading trusted experts for maintaining compliance in M365.

- **Proven Expertise** – 25 years of ediscovery experience providing comprehensive strategies and best practices to ensure legal programs surpass stringent compliance requirements while reducing risk and cost.
- **Elite Partnership** – Lighthouse is THE premier Microsoft partner for ediscovery and compliance.

Summary

CloudCompass membership is based on readiness, enablement and expertise, to empower organizations to stay in front of change and assure that programs remain current, compliant, and defensible in Microsoft 365.

About Lighthouse

For 25 years, Lighthouse has provided innovative software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams. Lighthouse leads by developing proprietary technology that integrates with industry-leading third-party software, automating workflows, and creating an easy-to-use, end-to-end platform. Lighthouse also delivers unique proprietary applications and advisory services that are highly valuable for large, complex matters, and a new SaaS platform designed for in-house teams. Whether reacting to incidents like litigation or governmental investigations, or designing programs to proactively minimize the potential for future incidents, Lighthouse partners with multinational industry leaders, top global law firms, and the world's leading software provider as a channel partner.

Delivering the Power of Empowerment

Stay compliant in the ever-changing cloud software environment.

The CloudCompass Advantage

Cloud-based software such as Microsoft 365 is always evolving. With product updates continuously being pushed out, and cloud platforms constantly improving, customers are able to garner the benefits of having the most recent, best version of the software.

But this rapid change presents real risks for compliance. Each product release represents potential actions required to ensure those risks are mitigated throughout your organization. It's a process that requires a great level of focus and specific expertise that is expensive to resource internally.

CloudCompass offers the timely information and support you need to ensure you are informed and ready to proactively mitigate any risks associated with ever-evolving SaaS software.

The R2 Report

Risk ratings and recommended actions for each relevant Microsoft 365 release on the roadmap.

Our industry-first R2 Report is the single most effective means of staying informed and prepared to deal with compliance impacts related to product updates.

Expert Guidance

The CloudCompass consulting team is comprised of experts in legal and compliance for cloud technology like Microsoft 365, to ensure you're maximizing your technology investments while minimizing costs and risks associated with digital transformation. In addition to the timely R2 Report, you'll receive industry-leading support tailored to your ediscovery program.

Annual Health Check

The Annual Health Check is a thorough review of your current ediscovery and compliance processes within your cloud platform to ensure you're adhering to best practices. Conducted through a series of use cases, a review of current configurations, and a series of questions, we evaluate your current workflows for preservation, collection, search, review, and export activities. The resulting summary report enables you to identify and resolve issues within your current operating model, or validate current processes that adhere to emerging industry standards.

Frontline Workshop

Our Frontline Workshop is a two-day, fully remote, interactive workshop, delivered to review recent cloud platform updates, trending topics, and best practices for ediscovery and compliance in the cloud. These sessions are focused on ensuring your stakeholders have a clear understanding of the latest features impacting legal and compliance in order to continue optimizing programs for ediscovery.
