

# Accelerating Medicine With AI-Powered Data

## Rethinking Drug Development

### One Central Hub of Analyzed Evidence

Our unified, validated & automated approach eliminates high costs & conflicting findings from independent clinical data analyses.

### Independent Tenants Protecting IP

Our pharma experience provides the background to help users operationalize data into daily workstreams that advance their assets from the lab to the market, securely.

#### SHIFTING THE PARADIGM

Spend time **FINDING** relevant data to develop innovations **TO**  
Spend time **DEVELOPING** innovations from a shared database
