The Free Know NOW! App

The **Know NOW!** App is your portal for all essential COVID-19 information. The App, which is available free of charge for Apple and Android, seeks to streamline the various sources of COVID-19 updates and unify them in one easy-to-use application.

Know NOW! shares real-time COVID-19 alerts from state Governors' offices, the Centers for Disease Control and Prevention (CDC) and beyond to get the most relevant safety information straight to any mobile device, including updates on closures, travel restrictions, executive orders, CDC statistics, COVID-19 test sites, re-openings and more.

Later in 2020, **Know NOW!** will unveil new features with uses far beyond COVID-19. Central to this increased functionality will be the ability for public and private organizations to create private groups for specialized alerts, maps and other premium features. For more information on how your organization can utilize **Know NOW!** for private use, please call 888.224.1047 or email info@centralert.com.
