## Shoebox Cooler

\$10.00

Mushroom® Coolers are a great way to store temperature-sensitive products without the use of plastic foams. This small cooler is perfect for items you want to transport while maintaining temperatures. Just include a gel pack or dry ice, shut the lid, and the mushroom cooler will do the rest!

As with all our Mushroom® Packaging products, these coolers are fully home compostable - break them up in your garden or compost and they'll add nutrition back into your soil!
