

In today's world, people need constant connection to technology. Our mobile app keeps you up to date on all your critical shipments, no matter where you are. On average, users spend 3.3 hours a day on their smartphone, and businesses have been able to successfully cut operational costs by 37% with application adoption. This is why Airspace created our mobile app for stakeholders. The app connects you to your shipment in the palm of your hand 24/7/365.

The mobile app is available on both the [App Store](#) and the [Google Play Store](#).
