About Poseidon

HARNESS THE GREEN WAVE®

Poseidon was founded by siblings Emily & Morgan Paxhia in **2013**, making their first fund one of the longest running dedicated cannabis investment funds. The Poseidon team has focused on a diversified strategy covering a range of company stages and industry subsectors across the capital spectrum. Now in the **seventh year of conducting due diligence**, deploying capital, and serving on multiple company Board of Directors, the team is considered a **leader in the cannabis industry**. This recognition, in conjunction with Poseidon being a **first mover in the cannabis investment space**, has led to a level of trust with industry insiders. Poseidon has forged a positive reputation in the cannabis industry by helping companies when others would not, resulting in **proprietary deal flow**.
