

# Core Solutions

## Patient Enrollment/Claim Review

Successfully paving a smooth patient journey is something we take pride with at RIS Rx. A precursor to affordability and access programs, RIS Rx offers a fully scalable model for onboarding patients into manufacturer sponsored patient support programs. Maintaining and ensuring ongoing program compliance is an important hallmark to program integrity and the critical downstream success of patient support programs.

Our process encourages active insurance procurement via real-time benefits verification (RTBV) and electronic benefits investigation (eBI) via our flagship benefits transparency tool, PreVail.
