EXTRAORDINARY DESIGN ON THE OUTSIDE – DURABLE CABINETS ON THE INSIDE

Reform collaborates with internationally acclaimed architects and designers to create modern, forward-thinking kitchen spaces. We work across architecture, design, and interior with the aim of creating bold, accessible and adaptable kitchens. As we enter the 2020s, the kitchen is taking on an increasingly vital role. With that in mind, Reform has set out to explore future-facing methods in craft and technology in the efforts to meet the new demands of everyday living.

Reform offers extraordinary kitchen fronts, countertops, and cabinets within a reasonable price range. Made from rich and varied materials, our carefully curated collections are easily combined with IKEA's SEKTION modules. For added quality and versatility, you can upgrade to our drawers and our patented cabinet system.
