I have to replace my washer and have a dryer DRYER, ELECTRIC FSE748GFS0 - stacked on top of my current one now. Will this washer fit below this dryer? If not, please recommend one that will. Also, will Sears replace the dryer on top when they install the washer?

Unfortunately, your Frigidaire dryer cannot be stacked with any new washer. Frigidaire no longer makes front load washers/dryers, and stacking kits are model (and brand) specific. Kenmore 41362 washer can be stacked with the matching Kenmore 81362 electric dryer or Kenmore 91362 gas dryer, using stacking kit 02617013000: <https://www.sears.com/s/p-02617013000P?rrec=true> // Thank you!

Unfortunately, your Kenmore dryer will not stack with any newer model washer. You'll need Kenmore 81362 electric dryer or Kenmore 91362 gas dryer to stack with Kenmore 41362 washer with stacking kit 02617013000: <https://www.sears.com/s/p-02617013000P?rrec=true> // Thank you!

I currently own a Kenmore 40272900 washer can I replace it with this unit and will it still stack with my Kenmore 90272900 dryer?

Davissb | Tue, Mar 2, 2021

1 answer | add answer | flag

According to your washer's owners manual, you have white stacking kit 17002. The stacking kit Kenmore 41362 uses is KSTK1, and KSTK1 is equivalent to your stacking kit 17002. Your current Kenmore 796.40272900 and the new Kenmore 41362 washers are both 27" wide. That means that your Kenmore dryer 796.9027900 (27" wide), can stack with a new Kenmore 41362 washer. Thank you!

FYI: You can do a Spin Only Cycle with this washer! From page 28 of the owners manual: The Drain & Spin Cycle: (1) Press the POWER button to turn ON the washer. (2) Press the SPIN SPEED button to select the desired spin speed. For drain only, select the NO SPIN option. (3) Press the START/PAUSE button. The water will drain and the clothes will [view more](#)

The compatible pedestal for LG washer WM2487HWMA has a smaller depth than the pedestal for the Kenmore 41362 washer (Kenmore 51122 pedestal). Which means your old pedestal will not fit.

This washer will work like a regular old school washer if you don't connect/use the wifi feature, right? I just want a normal, regular washing machine.

[1 answer](#) | [add answer](#) | [flag](#)

norcalgirl | Fri, Oct 23, 2020

Yes, that is correct. You don't need to use the WiFi feature. It is a normal High Efficiency washer.
