Get A Free Reader with Your Merchant Account

Vagaro makes mobile payments easy: Collect card payments in store or on the go with our EMV chip card reader. It wirelessly connects to your iOS and Android devices and accepts chip cards, magnetic stripe cards and contactless/NFC-enabled mobile phone payments like Apple Pay®.

For clients paying multiple service providers during one visit, Vagaro will automatically deposit the money into the corresponding bank accounts without having to swipe or dip the credit card multiple times.

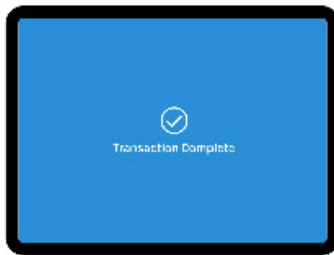

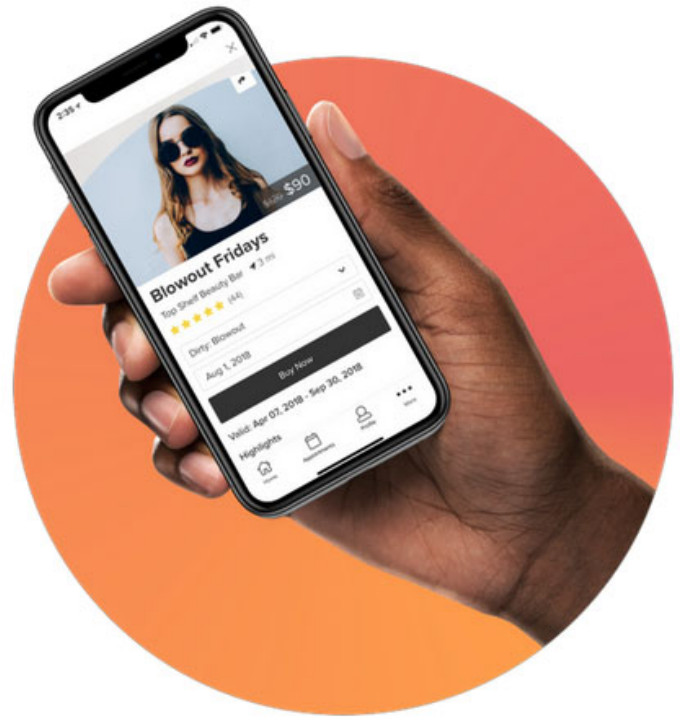

Accept Contactless Payments with Tap to Pay

Customers are using contactless forms of payment more than ever before. Ease and expedite the checkout experience with Apple Pay, Google Pay and other contactless payments. Customers simply hold their device above the EMV Card Reader to complete their contactless payment.

Offer Clients Online Payments

Shorten checkout time and minimize in-store interactions by giving customers the option to pre-pay or put down a deposit when they book with you online. That's peace of mind for you and for them! Bonus: pre-payments and deposits protect your business against no-shows and cancellations.

The Customer

Check Clients Out On Their Phone

Our COVID-Clean Checkout provides a safe payment experience by sending part of the checkout window directly to your customers' App. Customers can tip and sign on their phone without having to touch any point of sale hardware.

Choose the Pay Desk for Your Front Desk

The Vagaro Pay Desk makes it easy to schedule bookings, process payments and market your business. A dual touch screen ensures social distancing while providing a fast, transparent and secure checkout experience. Built-in safety and sanitation prompts keep clients safe every step of the way.
