Customizable Commission Payouts

Custom commission tiers give owners more control by ensuring payroll costs are directly tied to the money employees bring in. Easy-to-use tools allow you to create unlimited customized commission tiers, set specific commission rates, and pay employees for services, classes, & product sales using a flat dollar amount or a percentage.

Unlimited Commission Tiers

Use tiered commissions to encourage employees to sell more services and products. As performance increases, employees earn a higher commission rate. Create as many commission tiers as you want for service, class, & product sales.

	Tiered Commission by Revenue			Commission By Service
	Tier 1	Tier 2	Tier 3	
Employee	\$ 0	\$ 500	\$ 1500	+ Add
	\$0 - \$499.99	\$500 - \$1499.99	\$1500+

Customize Commission Rates

Every service and product you sell is unique, and how you pay staff for them should be, too! Vagaro enables you to set specific commission tiers by service, class, or product, so you can focus employees on selling more of specific products or services. Set specific commission pay tiers for service, class, and product sales.

Tiered Commission by Revenue	Commission by Product		
100% Pure Essential Oils	Product	Allegra Solano	Bryan Nguyen
Advantage	Anova \$33	5%	5%
Art Of Shaving

Flat-Rate or Percentage

Small business owners can design your ideal payroll with hourly base pay and set commission rates or a sliding scale percent commission. Have more control over payroll costs by adjusting commission rates by specific employee, experience levels, sales goals, or specific retail products.
