PHLster Enigma

From: \$84.99

****Limit 2 per customer****

Includes:

- 46 inch adjustable belt
- Fidlock Magnetic Quick Release Buckle
- Mounting and Attachment Hardware
- Holster Faceplate
- Leg Leash

Enigma fits NON-light bearing holsters with a ModWing, Darkwing, Raven wing, and similar AIWB concealment claw/wing attachments which have the standard 5/8ths hole spacing.

Not for use with light-bearing holsters, "sidecar" holsters with attached magazine carriers, or holsters which do not have the above-mentioned specific concealment wing attachments.

Reduced Sized Buckle kit [↗](#)

The Reduced Sized Buckle kit is an Enigma optimization for users with a sub 30 inch waist, or for those who want to reduce the span of the buckle in order to accommodate additional gear items. This steel slider buckle eliminates the quick-connect feature of the Fidlock Magnetic Buckle in favor of a 3 inch reduction in buckle span.

Use the original screw, finish washer, neoprene spacer, and post, included in the Enigma hardware kit, to attach the Reduced Sized Buckle to the Enigma faceplate.
