Download Fluentd

Fluentd (v1.0, current stable)

Fluentd v1.0 is available on Linux, Mac OSX and Windows. Also, Treasure Data packages it as Treasure Agent (td-agent) for RedHat/CentOS and Ubuntu/Debian and Windows

Platform	Platform Version	Package or Installer
RHEL / CentOS / Amazon Linux	2.6+ Linux kernel (64-bit)	**td-agent v4.1.1** • x86_64: RHEL8, RHEL7, Amazon Linux 2 • aarch64: RHEL8, RHEL7, Amazon Linux 2 **td-agent v3.8.1 (old stable)** • RHEL7, RHEL6 Installation Guide
Ubuntu/Debian	2.6+ Linux kernel (64-bit)	**td-agent v4.1.1** • Ubuntu: Focal, Bionic, Xenial • Debian: Buster **td-agent v3.8.1 (old stable)** • Ubuntu: Bionic, Xenial, Trusty • Debian: Buster Stretch, Jessie Installation Guide
Windows	Windows Server 2012+ (64-bit)	**td-agent v4.1.1** • msi repository **td-agent v3.8.1 (old stable)** • msi repository Installation Guide
MacOS X	OSX 10.11 or later	**td-agent v4.1.1** • dmg repository **td-agent v3.1.1 (old stable)** • dmg repository Installation Guide
Container	Docker	Docker image at Docker Hub
Ruby	Ruby v2.1.0 and above	**Fluentd v1.13.0 (current stable. recommend for production)** • `gem install fluentd` Installation Guide (* ruby expert-use only)

Fluent Bit (Lightweight Forwarder)

If you're looking for more lightweight forwarder for edge devices / servers / containers, use Fluent Bit, an open source data collector specifically designed for data forwarding. Fluent Bit is more efficient in terms of CPU / Memory usage, but has limited features. The following table list the available Linux packages for different distributions. Note that Fluent Bit packaged is known as *td-agent-bit*.

Visit fluent-bit official site and documentation.

Fluentd (v0.12, old stable version)

Fluentd v0.12 is available on Linux and Mac OSX. Also, Treasure Data packages it as Treasure Agent (td-agent) for RedHat/CentOS and Ubuntu/Debian and provides a binary for OSX. td-agent 2.5 uses ruby 2.5 and td-agent 2.3 uses ruby 2.1

Platform	Platform Version	Package or Installer
RHEL / CentOS /	2.6+ Linux kernel (64-bit & 32-bit)	**td-agent v2.5.0/2.3.6** • Installation Guide • 64-bit (RHEL7, RHEL6, RHEL5)

@obsecurus

. @gmoroot and I wrote a GreyNoise community API integration for Fluent Bit to help de-prioritize noisy logs. We just finished up our presentation on this at FluentCon which will be released on the 14th. Looking forward to any feedback you may have! github.com/GreyNoise-Inte…
